2. Express and Freight Orders

Shipping charges for express and freight orders are determined by the weight of your order. They will be calculated individually and you will receive a separate invoice.

Orders exceeding 110 kg

For large orders exceeding 110 kg, freight may be the best shipping option. In this case quotations will be obtained from various shipping companies. You will be informed about options and delivery times prior to despatching your order.

3. Other Shipping Options

We have determined our Standard Shipping as the most cost-effective and reliable way to supply our customers in these countries. If you request a shipping method other than those listed above, you need to contact us for a quotation.

4. Dropshipping

Upon request we will dropship your order. For this service we charge 3.50 € on top of the shipping rates listed above.
